Care of Your New Floors

Sheet Vinyl: Sweep or vacuum between cleanings. DO NOT WAX. The following products are available in our store:

Congoleum Bright & Easy Floor Polish
Congoleum Bright & Easy Polish Remover

Carpet: Vacuuming frequently and thoroughly with a quality vacuum sweeper is the most important thing you can do to maintain your carpet. Vacuum high traffic lanes and areas in front of frequently used sofas or chairs daily to discourage the carpet from matting and crushing. Your furniture should be rearranged periodically to distribute wear of carpet evenly. Treat spills/stains as soon as possible to prevent setting. The following products are available in our store:

Liquid Sun Magic
Capture Carpet Cleaning Kit
Urine-Off

A good rule of thumb is to have the carpet professionally cleaned approximately 18 months after installation and annually after that. The carpet manufacturers recommend the following companies in the northern Columbus area:

Buckeye ChemDry (Powell)	850-0873
Simply Clean (Powell)	761-2700
Gore's Carpet Service (Westerville)	792-2355

Hardwood: Vacuum (with the beater bar raised completely), dust mop or sweep between cleanings. Wipe up spills as soon as possible. Use cleaning products safe for polyurethane floors. IC Floors proudly offers the following products in our store:

Somerset Hardwood Cleaner
Bona Hardwood Floor Refresher.

DO NOT USE MURPHY'S OIL SOAP OR ANY PRODUCT THAT IS DILUTED WITH WATER without first checking with the manufacturer. These products may void the manufacturers warranty.

Ceramic/Porcelain: Vacuum (with the beater bar raised completely), dust mop or sweep between cleanings. Mop with ammonia and water or any cleaner that is safe for ceramic floors. Dirty grout can be cleaned with bleach diluted with water (1 part bleach to 10 parts water) or with a grout cleaning product as listed below. Either method will require lots of scrubbing. Using a grout sealer will significantly improve the chances of keeping grout clean by making it less porous. Apply sealer according to manufacturer's specifications and reapply annually. Please visit our store for these fine products:

Super Seal Aerosol Grout & Tile Sealer
Aquamix Concentrated Tile Cleaner
Aquamix Grout Sealer

Carpet • Hardwood (jobsite-finished & factory-finished)
